

Financing Plan for a 100kW Foldable Container for Hospitals

Overview

What is a container hospital?

Container Hospitals are easily stored and re-usable for rapid deployment in the future. Each unit is a self-contained biosphere with dedicated AC/Heating ventilation and lighting. Units provide dual connectivity to power grid and/or mobile generator. Container Hospitals lend themselves to more effective/efficient cleaning/disinfection regimes.

Why should you choose a container hospital?

Units provide dual connectivity to power grid and/or mobile generator. Container Hospitals lend themselves to more effective/efficient cleaning/disinfection regimes. The Integrated & American Maritime companies have container production facilities located in key areas across the US: NY/NJ, Chicago, Texas, and Georgia.

What is the minimum number of options for a healthcare project?

base case "Do Nothing".¹³ Project Costing Each of the options generated and shortlisted should be costed. The minimum number of options for Private healthcare is 1. The minimum number of options for the Public healthcare is 4. There are several aspects
