

# Flow battery business prospects

## Overview

---

What is the global flow battery market size?

The global flow battery market size was valued at USD 328.1 million in 2022. This market is anticipated to grow at a compound annual growth rate (CAGR) of 22.6% from 2023 to 2030, primarily driven by the rising demand for energy storage systems globally.

What is the expected CAGR of the flow battery market?

The global flow battery market size was valued at USD 328.1 million in 2022 and is anticipated to grow at a compound annual growth rate (CAGR) of 22.6% from 2023 to 2030. The rising demand for energy storage systems globally is the primary factor for market growth.

Why is the flow battery market growing?

With the increasing adoption of renewable sources of energy, namely solar and wind, the demand for batteries has increase, which in turn has affected the growth of the flow batteries market. This trend is set to continue all around the globe with green energy targets set up by various developed and developing countries.

What are the key market restraints for the global flow battery market?

The high upfront cost indulged in the manufacturing and installation of the flow batteries acts as key market restraint for the global flow battery market. Also, the low power density as compared to the lithium-ion batteries acts as the key market restraint for the global flow battery market.

## Flow battery business prospects
