

# **French production of household energy storage power supply**

## Overview

---

Does France have a storage battery market?

The European residential storage battery market has grown significantly during the energy crisis, but it has remained relatively small in France. Nevertheless, battery manufacturers expect higher demand due to rising electricity prices. From pv magazine France.

How much does electricity cost in France?

“In France, electricity prices, which are around €0.20/kWh, remain lower than the levels observed in other European countries,” Arthur Jouannic, France director for LCP Delta, told pv magazine France.

How many homes in France have PV systems?

French market research firm LCP Delta reports that approximately 566,000 homes in France had PV systems by the end of 2022, with around 2 GW of capacity. Among these systems, only 1,000 were equipped with home storage batteries, with average capacities of 4 kW.

How many photovoltaic installations in France have a battery?

“In France, only five out of 100 photovoltaic installations are equipped with a battery,” said Maâty Bouanane, Enphase’s France sales manager, during an interview with pv magazine France in March, noting that in Germany, this rate is 80%.
