

Georgia Smart Solar System

Overview

What is Georgia Power's simple solar program?

Georgia Power's Simple Solar program allows all customers to support and foster the growth of solar energy by enabling Georgia Power to purchase and retire Renewable Energy Credits (REC) generated from solar energy resources.

Does Georgia have a solar market?

National Solar Capacity Ranking: 7th Data Current Through: Q1 2025
Georgia's solar and storage market has taken off in recent years, landing it a top spot in SEIA's national solar rankings. During the 2024 session, an industry-supported decommissioning bill was passed after much collaboration and effort.

What is GA Solar?

GA Solar is a group comprised of leading experts in solar manufacturing and installation, academia, finance, and the law. They are leading the effort in Georgia to promote the economic and environmental benefits of solar energy through education, advocacy, and industry support. Join their campaign to urge the Public Service Commission to Scrap the Solar Cap!.

How much does a solar system cost in Georgia?

In Georgia, you'll need a 12.35 kW system to match the average electric bill. It'll cost you around \$22,192 after the federal tax credit. As long as your federal tax bill is high enough, you can take advantage of the federal investment tax credit (ITC). Compare multiple offers and save up to 20%
