

# **German containerized generator set BESS**

## Overview

---

Who is Bess Germany?

At BESS Germany we specialize in the development of BESS projects in Germany. Our clients are institutional investors and family offices who acquire our projects in various stages - from our exit after ready-to-build status is confirmed, to realizing the entire battery storage systems, as well as operating the system for the investor.

Will Germany reach 12gw of Bess capacity by 2030?

Although most of this proposed capacity is unlikely to reach final investment decision, the outlook for actual installations remains ambitious. If the current BESS deployment rate of 1GW of additional capacity every six months continues, Germany could exceed 12GW of installed grid-scale BESS capacity by 2030.

Is Bess a market of the future in Germany?

BESS are undoubtedly a market of the future in Germany. However, economic success depends not only on the technology, but also on strategic risk management. Anyone investing should know whether - and how - risks are hedged. Optimistic scenarios alone are not enough. The energy transition needs storage.

Is Bess a multi-market optimi-sation?

corroborating the business model of multi-market optimi-sation for BESS in Continental Europe. In Germany, Aquila Clean Energy is developing a large portfolio of battery storage projects consisting of 45 - 85 MW projects with two-hour storage duration, markin
