

Gistasolar panels

Overview

Why did GStar participate in the re+2024 Solar Exhibition?

In September 2022, Gstar participated in an international exhibition for the first time. This exhibition is SPI held in LA. With the global demand for clean energy on the rise, the RE+2024 Solar Exhibition in the U.S. has once again become a key event in the solar industry.

What are the different types of GStar modules?

Gstar P-Type Module - including single glass JUPITER modules and dual-glass MARS modules, range from 370W-600W, can be made into full black modules, with a maximum conversion efficiency of 21.5%. Gstar N-Type Module - ranging from 390W-630W, with a maximum conversion efficiency of 22.65%.

What is G-Star's PV material manufacturing business?

G-STAR's PV material manufacturing business primarily focuses on the production and processing of silicon materials, including silicon pulling and N-type silicon wafers, as well as metal materials production, including frames and mounting systems.

What is a GStar p-type module?

Gstar P-Type Module - including single glass JUPITER modules and dual-glass MARS modules, range from 370W-600W, can be made into full black modules, with a maximum conversion efficiency of 21.5%. G-STAR, founded in 2019 and headquartered in Singapore, is committed to being a trusted global new energy solution provider.

Gistasolar panels

GISTA GS5M96-250 (Black) 250 Watt

The GS5M96-250 (Black) solar module from GISTA helps you to maximize the performance of your solar system and delivers an outstanding rated output of 250 watts.
