

Greek Southern Power Grid Energy Storage Company

Overview

Does Greece have a zero-subsidy battery system?

The much-awaited ministerial decree for zero-subsidy standalone battery systems has been published in Greece. So far, Greece has provided support to 900 MW of standalone storage projects under three previous auctions.

Who is Enel Green Power Hellas?

Enel Green Power Hellas is established, aiming at the development and production of energy from renewable sources. The company is a subsidiary of Enel, the multinational group for electricity generation and distribution, beginning its activities in Greece with the acquisition of projects in operation (83 MW) and under construction (43 MW).

Who is Enel Green Power?

Established in 2008 as part of Enel Green Power in Greece, we have evolved into an independent entity, owning 66 plants in operation with a total installed capacity of 577 MW and actively expanding our footprint, with another 230 MW of projects under construction or ready to build, and an additional 5.6 GW under various stages of development.

What happened to Enel Green Power Hellas?

Construction of the company's new solar cluster, Perasma, begins. The cluster, which is located in the wider Kozani area and consists of 7 parks, with a total installed capacity of 95 MW, begins operation in 2024. The sale of 50% of Enel Green Power Hellas by Enel SpA to Macquarie Asset Management is completed.
