

Hanoi Communications builds 5g base station

Overview

What will Qualcomm do with 5G in Vietnam & Laos?

From a supplier perspective, Thieu Phuong Nam, General Director of Qualcomm Vietnam, Cambodia and Laos, said that Qualcomm will continue to work with technology ecosystems, mobile ecosystems, including the Government, network operators, and domestic manufacturers to deploy 5G on a large scale.

What is Vietnam's Digital Infrastructure Strategy for 2025?

Vietnam's Digital Infrastructure Strategy for 2025, with a vision toward 2030, underscores that "digital infrastructure is the backbone of the economy." It sets a target that by 2025, all localities, high-tech zones, IT hubs, R&D centres, innovation hubs, industrial parks, railway stations, seaports, and airports will have access to 5G services.

How will 5G impact Vietnam's Digital Economy?

A study by Ericsson estimated that 5G will account for approximately 50% of mobile subscriptions in Vietnam by 2029. Currently, more than 25% of the country's data traffic is transmitted via 5G. This technology is seen as a crucial tool for Vietnam to achieve its goals in the digital economy, with a projected contribution of 20% to GDP by 2025.

Where will 5G be available in 2025?

It sets a target that by 2025, all localities, high-tech zones, IT hubs, R&D centres, innovation hubs, industrial parks, railway stations, seaports, and airports will have access to 5G services. The demand for 5G among individuals and businesses is growing rapidly.
