

Hanoi solar tile manufacturer

Overview

What is solar tile?

Solar tile, which combines solar panels and roof tiles, integrates photovoltaic and architecture. Crystal silicon photovoltaic technology and building tile structure are innovated to eliminate the complex project of secondary installation and replace traditional cement tiles and clay tiles with one-time paving.

What is the most popular tile in Vietnam?

The most popular tile in Vietnam is the ceramics tile, used for ages with porcelain and granite tiles. Ceramic tiles, durable and crack-resistant, find numerous uses in residences and commercial structures. Also, ceramic tiles with protective coatings become highly resistant to water and stains.

Where do Vietnamese tiles come from?

Vietnam exports tiles mainly within Asia, to the USA, and Australia. The most popular tile in Vietnam is the ceramics tile, used for ages with porcelain and granite tiles. Ceramic tiles, durable and crack-resistant, find numerous uses in residences and commercial structures.

Who makes solar panels in Vietnam?

In particular, the company produces monocrystalline and polycrystalline solar panels with current capacities that range from 3W to 320W. Located in the suburban area of Ho Chi Minh City, Vietnam, Solar Power Vietnam makes use of solar cells from Solar World (Germany) and Suniva (the U.S.A.).
