

# How long is the warranty period for solar panel glass

## Overview

---

The duration of the warranty can vary, but it generally ranges from 10 to 25 years, depending on the type of solar glass and the manufacturer's confidence in its quality. How long is a solar panel warranty?

Solar panel warranties vary depending on the manufacturer, but in the solar industry, a 10-year product warranty and a 25-year performance warranty are typically considered the minimum standard. However, some manufacturers provide a 25-year product warranty and extend the performance warranty to 30 years. How Much Does a Solar Panel Warranty Cost?

.

What makes a good solar panel performance warranty?

An ideal solar panel performance warranty should include the following conditions: Certain solar manufacturers may even guarantee a degradation rate as low as 0.25% per year, coupled with a performance warranty period of up to 30 years.

How do I get a solar panel warranty?

Generally, the most robust warranties are obtained by hiring installation companies certified by the solar brands they represent. Alternatively, long warranties can also be secured from solar manufacturers that provide their own installation services. What Is Not Covered by a Solar Panel Warranty?

.

Why do solar panels have warranties?

Warranties serve as a testament to the quality of a product. Companies typically offer superior warranties for products of higher quality. While solar panel failures are exceedingly rare due to their design to endure for decades and withstand harsh weather conditions, occasional errors may still occur.
