

How long will it take for Vietnam s 5G base station to be repaired

Overview

How many 5G stations are there in 2025?

According to information from the Radio Frequency Department (Ministry of Science and Technology), by May 2025, Viettel, VNPT and MobiFone had deployed about 11,000 5G stations in 100% of provinces and cities nationwide and covered 5G over 26% of the population.

What is Vietnam's 5G development strategy?

Vietnam's 5G development strategy has been clearly defined in national digital technology and infrastructure policies. To achieve the goal of an average transmission speed of 100 Mbps by 2025 and nationwide 5G coverage by 2030, many solutions are being actively deployed.

How many 5G base stations will VNPT install this year?

According to Nguyen Anh Dung, Director of Enterprise Customer Division at VNPT, the company is expected to install approximately 20,000 new 5G base stations across the country to enhance network connectivity this year. VNPT effectively deploys Smart Agriculture Solution - ONE Farm. (Photo: VNA).

Does Viettel have 5G?

The company launched its 5G services on October 15, 2024, covering central areas in all 63 provinces and cities. By 2025, Viettel plans to expand its network by deploying approximately 20,000 new base stations, raising its 5G infrastructure to 50% of its 4G network.
