

How many hydrogen energy stations are there in Andorra la Vella

Overview

What are the 10 energy communities in Andorra?

This is another step towards the digitalisation of the area surrounding Andorra together with the development of 10 energy communities. These are Andorra, Híjar, Albalate del Arzobispo, Puebla de Híjar, Jatiel, Castelnou, Ejulve, Molinos, Alacón and Alcorisa.

How will Andorra become a green country?

Andorra will go from producing energy using coal, to generating clean energy with an installed capacity of 1,843.6 MW as a result of 7 hybridised renewable projects, 2 storage projects with batteries, a green hydrogen project and a synchronous compensator.

How many hydrogen refueling stations are there?

By the end of 2023, there were 1,063 hydrogen refueling stations (HRS) in operation in 35 countries worldwide. The number of stations globally is forecast to increase to 6,080 by 2030, fueled by favorable government policies and rising demand for hydrogen-powered vehicles. The HRS supply chain comprises numerous regional and global operators.
