Tariff may apply to this part if shipping to the United States. Tariff may apply to this part if shipping to the United States. 12 VDC UPS - Uninterruptible Power Supplies are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for 12 VDC UPS - Uninterruptible Power Supplies.

Can UPS batteries be used while charging?

Our ups batteries can be used while charging. When your home is out of power, ups will supply power to your equipment, so that your equipment can operate normally in the event of a power outage. It can support charging and use at the same time. When the power is suddenly cut off, it will continue to supply power to your device without adjustment.

Why do businesses need uninterruptible power supply (UPS) systems?

In the digital age, where businesses rely heavily on continuous operation and data integrity, the importance of Uninterruptible Power Supply (UPS) systems cannot be overstated. These systems serve as a safety net against power disruptions, ensuring seamless operation and safeguarding critical equipment from damage.
