

# How much does energy storage equipment cost in Costa Rica

## Overview

---

Are storage units expensive in Costa Rica?

Of course there's a wide range of costs depending on size, security, location and climate control options but one thing is consistent - storage units are expensive in Costa Rica.

How much does electricity cost in Costa Rica?

Electricity in Costa Rica is not cheap, with an average of USD 28 cents per Kw/hr. Currently, ICE is betting on the increase of imports and the use of Electric Vehicles in order to increase consumption, as many of its large companies have been decreasing consumption due to the installation of solar solutions.

How to find a mini-storage unit in Costa Rica?

The most important thing to know about trying to find a mini-storage or self-storage unit in Costa Rica is that they are called "mini-bodegas". Google translate will tell you that means "small winery" but don't let that confuse you. Searching online for "self-storage in Costa Rica" you won't find many so try "bodega" instead.

Who sells solar panels in Costa Rica?

American firms have a strong presence in Costa Rica by selling their products through local distributors or joint ventures. The main competitors of U.S. businesses in the solar area in Costa Rica are Chinese brands. Most companies selling solar systems are local companies that assemble Asian solar panels with some U.S. made components.
