

Huawei Israel solar panel roof BESS

Overview

Why do Israeli homes have solar panels on their roofs?

"A solar roof provides energy security for the family in times of emergency and maintains a green and clean environment." Most homes and apartments across Israel already have solar panels on roofs to heat water.

How many solar roofs will Israel have by 2030?

Israel's Ministry of Energy and Infrastructure says its 100,000 Solar Roofs Program aims to add 1.6 GW of new solar capacity by 2030. Israel's Ministry of Energy and Infrastructure is targeting the addition of 100,000 solar rooftop arrays in the country by the end of this decade.

Should Israel install solar panels?

"Installing solar panels allows roof owners to enjoy additional financial income and consume electricity during emergency hours, and it increases the energy security of the State of Israel, while producing non-polluting electricity for the benefit of the health of all citizens," said Minister of Energy Eli Cohen.

How much solar energy does Israel need?

The 100,000 target, equivalent to 15% of Israel's residential rooftops, is expected to add 1.6 GW to the country's solar energy supply.
