Explore the latest technologies in HUAWEI smartphone, wearable, PC, tablet, audio, router. Get to know the related accessories and software applications.

Is Huawei eyewear 2 Waterproof?

HUAWEI Eyewear 2 is sweat- and water-resistant, and is rated IP54 under the IEC standard 60529 when tested under controlled lab conditions. It is recommended that you avoid wearing the product during water-related activities. Sweat and water resistance are not permanent, and therefore performance may deteriorate due to daily wear-and-tear.

What makes Huawei temples so special?

The highly-bendable, breathable front hinge is 0.1 mm thinner, and complemented by adjustable silicone nose pads, which are snug, skin-soothing, and marked by a sleek metal HUAWEI logo. The temples were designed ergonomically to fit heads of different sizes.

Does Huawei eyewear 2 have a wind-noise-resistant duct?

The wind-noise-resistant duct prevents air from being directly blown into the microphones, and keeps the sound clear as can be, even at wind speeds of up to 4.5 m/s. HUAWEI Eyewear 2 is also bolstered by a smart call noise cancellation algorithm, which limits ambient noise without compromising call quality.
