

# **Huawei Saudi Arabia Energy Storage Container**

## Overview

---

What is Saudi Red Sea New City Energy Storage Project?

Huawei Digital Energy Technology and Shandong Electric Power Construction (SEPCO III) has successfully signed the Saudi Red Sea New City energy storage project. The energy storage capacity of the project reaches 1300MWh, which is by far the world's largest energy storage as well as off-grid energy storage project.

Will Huawei fusion solar power Red Sea city's off-grid energy needs?

Huawei's FusionSolar Smart String Energy Storage Solution will power the Red Sea City's off-grid, clean energy needs. The Red Sea Project, a key part of SaudiVision2030, is now the world's largest microgrid with 1.3GWh storage capacity.

Why is Huawei involved in the Red Sea project?

Huawei's involvement in the Red Sea Project underscores its commitment to sustainability, technological expertise, and collaboration. "The Red Sea Project provides an unparalleled opportunity to demonstrate this commitment and showcase our industry-leading innovation and technology," said Xing. "It's a blueprint for sustainable cities.

What is Saudi Arabia's Red Sea project?

Saudi Arabia's Red Sea Project is making headlines with the construction of the world's largest photovoltaic-energy storage microgrid. Featuring a 400MW solar PV system coupled with a 1.3GWh energy storage system, this ambitious project is set to revolutionize sustainable energy solutions in hospitality.
