

Hungarian energy storage power supplier

Overview

What is Hungary's largest battery energy storage system?

The additions include 18.4 GW of solar, 3.5 GW of wind, and 250 MW of bioenergy — the highest-ever. MET Group has officially commissioned Hungary's largest standalone battery energy storage system (BESS), marking a major milestone in the country's journey toward a more resilient and renewable power grid.

Will Hungary's new battery energy storage system help Green the grid?

The new facility supports a growing push to green Hungary's power grid. Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

Who will build Hungary's largest energy storage facility in Szolnok?

Forest Vill Ltd. will build Hungary's largest energy storage facility in Szolnok on behalf of MAVIR Ltd. The Budaörs-based company will design and fully implement a 20 megawatt energy storage facility with a capacity of 60 megawatt-hours as part of the HUF 8.5 billion project.

How much solar power does Hungary have?

State secretary for energy transition of the Energy Ministry Viktor Horvath noted that Hungary had built more than 8,000MW of solar capacity in the past 5-6 years and one-quarter of the electricity generated in the country came from renewable sources last year.
