

# **Hungary Liantao Energy Storage Power Supply**

## Overview

---

Will Hungary's new battery energy storage system help Green the grid?

The new facility supports a growing push to green Hungary's power grid. Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

Is Hungary stocking up on battery backup?

Hungary isn't alone in stocking up on battery backup as it charts its green energy path. In neighbouring Bulgaria, a massive 124 MW/496 MWh battery energy storage system went live in Lovech earlier this year.

How will a new solar power plant help Hungary's power grid?

The new facility supports a growing push to green Hungary's power grid, especially as solar capacity surges. With no moving parts and a rapid response time, batteries like this are designed to stabilize the grid by storing excess solar power and releasing it when demand peaks.

Which country is preparing to deploy 200 mw/400 MWh of battery storage?

Meanwhile, Serbia—Hungary's southern neighbour—is preparing to deploy 200 MW/400 MWh of battery storage capacity. The planned systems are expected to be collocated with utility-scale solar farms, helping the country manage intermittency and improve energy resilience. The Dunamenti BESS is part of MET Group's broader play across Europe.

## Hungary Liantao Energy Storage Power Supply

---

### Hungary solar energy storage: Impressive 2024 Expansion

Dec 5, 2025 · The new solar energy storage projects by Alteo represent a significant step forward for Hungary's renewable energy sector. With strong government support and innovative ...

---

### Hungary powers up largest battery storage system near Budapest

Jun 20, 2025 · Hungary switches on its largest battery energy storage system at Dunamenti gas power plant to support grid flexibility near Budapest.

---

### Hungary Expands Energy Sovereignty with New Storage ...

Hungary has made another significant move towards energy independence with the opening of the new energy storage units of E.On Hungaria in Soroksar. State Secretary of Energy Attila ...

---

### MET Group inaugurates Hungary's largest ...

Jun 19, 2025 · Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into ...

---

### Hungary Energy Storage Market (2025-2031) , Trends & Size

The Hungary Energy Storage Market is primarily being driven by the increasing demand for renewable energy sources such as wind and solar power. As the country aims to reduce its ...

---

### MET Group inaugurates Hungary's largest battery energy storage ...

Jun 19, 2025 · Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into operation a battery electricity storage plant with ...

---

### Under the Temporary Crisis and Scheme for Energy ...

Aug 25, 2025 · 1. Background On 21 June 2023, the European Commission approved with the decision SA.102428 a Hungarian state aid scheme to support energy storage facilities for the ...
