

# **Indonesia Surabaya Construction Investment Energy Storage Project**

## Overview

---

Is Surabaya a pilot city for energy transition in Indonesia?

Surabaya, Indonesia Sentinel — Surabaya, the capital of East Java, has been selected as a pilot city for energy transition and efficiency efforts in Indonesia. The city officially launched its building sector decarbonization program on April 16, 2025, under the Sustainable Energy Transition in Indonesia (SETI) initiative.

Why was Surabaya chosen as a transition energy model city?

Surabaya was chosen for transition energy model city considering its considerable energy-saving potential, existing green building certification framework, rapidly growing construction sector, and the capacity of local stakeholders to manage energy transition projects.

Does Surabaya have a power plant?

Surabaya also has the Benowo Waste Power Plant (PSEL), which is the first of its kind in Indonesia. Irvan said that successful energy efficiency requires collaboration from all parties.

Can Surabaya become an example for other cities?

“Surabaya City Government will receive technical support, planning studies, capacity building, and participation in urban energy networks through this SETI project. With this support, it is hoped that Surabaya can become an example for other cities in carrying out the energy transition towards better sustainability,” said Johannes.
