

Industrial Battery Cabinet

Overview

What is a battery cabinet?

Battery cabinets are a convenient storage solution that encourages staff to maintain the correct handling and storage procedures. By charging and storing batteries in the one location, you are reducing the likelihood of batteries being lost, stolen, damaged or left in unsafe conditions (such as outdoors).

What is a lithium ion battery storage cabinet?

Our Lithium Ion Battery Storage Cabinet LBSC-A10 is designed for secure storage of lithium-ion batteries in labs, workshops, and small industrial units, offering fireproof protection in compact spaces. Labtron Lithium Ion Battery Storage Cabinets are engineered for secure storage and controlled battery charging environments.

What are Arimon battery cabinets?

Arimon uninterruptible power supply (UPS) backup battery cabinets are available for either front access batteries or top terminal (monobloc) batteries. All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.

Why do we need a backup battery cabinet?

Through cutting-edge research and innovation, advanced engineered power products for backup battery cabinets have become essential to our energy future. When the power goes out, battery backups ensure that the Internet, cloud-based data, financial and health records stay accessible.
