

Iraq Communications is now building 5g base stations

Overview

Will Iraq launch a fully government-owned 5G network?

Shafaq News/ On Tuesday, Iraq's Ministry of Communications announced the signing of an agreement with global telecom giant Vodafone to launch a fully government-owned 5G network. Vodafone is one of the leading telecommunications companies in Europe and Africa, serving over 330 million customers across 15 countries.

What does the 5G agreement mean for Iraq's digital future?

This agreement marks the beginning of a broader vision for Iraq's digital future, with plans to expand 5G coverage across the country. Both the government and Vodafone are committed to ensuring that the implementation of 5G benefits the entire population, including rural and underserved communities.

How will 5G impact Iraq?

With the advent of 5G, Iraq is poised to experience significant improvements in several key areas. The high-speed internet capabilities of 5G will benefit various sectors including healthcare, education, finance, and transportation.

Who owns Iraq's national telecommunications network?

On 26 November, Vodafone secured the license to operate Iraq's national telecommunications network, after the Council of Ministers approved its selection as the operator for the national mobile license project using 5G technology.
