

# Is there an 80kw inverter

## Overview

---

How much does a 200KW inverter cost?

of 200kW inverter is about\$10k. BRUSA systems are for OEMs they will keep small guys away by artificially higher pricing - standard practice in industry. for 400kW peak. Should get this hardware by the end of the year for people. Have fun with your projects, visit metric mind toward the end of the year for better systems.

What is DC to AC solar power converter?

DC to AC solar power converter is 80kW high power, 3 phase, pure sine wave AC output, LCD display data, this wide DC input voltage off grid inverter can work without a battery bank and solar charge controller in solar power system. Powerful protection functions make its service life up to 15-20 years or more.

Who makes Delta inverters?

Designed, engineered and manufactured by Delta, you can depend on Delta's best-in-class engineering and quality manufacturing. The grid-tied, three-phase, transformerless inverters are designed for ease of installation fast commissioning, efficient servicing, and higher uptime.
