

# **Ivory Coast Off-Grid Solar Container 20MWh**

## Overview

---

How much solar energy will Ivory Coast have in 5 years?

“In five years, the share of solar energy will be 9%,” stated Prime Minister of Ivory Coast, Robert Beugré Mambé during the power plant inauguration on April 24. Its capacity is set to expand to 80 MW by 2025, with financing for the expansion already approved by the government.

How much power does the Ivory Coast have?

Its capacity is set to expand to 80 MW by 2025, with financing for the expansion already approved by the government. The Ivory Coast currently has installed power capacity of 2,907 MW, with seven operational hydroelectric dams serving as its primary renewable energy source alongside four existing gas and oil-fired thermal power plants.

Which country has the largest solar power plant in West Africa?

Meanwhile, the Ivory Coast inaugurated the 37.5 MW Boundiali power plant, which is the first photovoltaic solar plant in the country and the largest in West Africa. “In five years, the share of solar energy will be 9%,” stated Prime Minister of Ivory Coast, Robert Beugré Mambé during the power plant inauguration on April 24.
