

Kampala residential building with solar container communication station and wind and solar complementarity

Overview

What is solar energy used for in Uganda?

Solar energy is used to generate electricity, heat water, and provide lighting in Uganda. It can also be used to power homes, hospitals, schools, and businesses. Solar energy is an ideal choice for rural areas in Uganda where access to electricity is limited.

Where is solarika energy located?

Penn Station, Seventh Street, Industrial Area, Kampala, Uganda. Solarika Energy is a leading provider of solar energy equipment in Uganda and South Sudan. We offer a wide range of solar products and solutions to meet your energy needs.

Who is solarika energy?

Solarika Energy is a Ugandan renewable energy Engineering, Procurement, and Construction company with a specialized interest in off-grid/on-grid energy solutions. Solarika Energy partners with several international and local producers of renewable energy solutions components as an EPC company.
