What Is an Uninterruptible Power Supply (UPS)?

.

Which is the best ups manufacturer?

Mitsubishi Electric is another big name in the list filled with global giants. It is a renowned manufacturer of UPS systems. Its products are considered to be the most reliable and require the least amount of maintenance. Due to this reason, this company has garnered a positive image in the uninterruptible power supply manufacturers' industry.

What are the different types of uninterruptible power supplies?

Three main types of uninterruptible power supplies are currently used: offline, line interactive, and on-line systems. Offline UPS systems are standby systems that provide battery power to equipment when the main power supply falls underneath a certain limit. These are mostly used in home and office applications due to their lower cost.

What is an uninterruptible power supply?

Uninterruptible power supplies are used to protect computers, telecommunication equipment, and any other electrical equipment that could cause injuries, fatalities, or serious business disruption and data loss if unexpected power disruption occurs.
