

Large-scale solar energy storage in Brazil

Overview

Will Brazil hold a large-scale energy storage auction in 2025?

The Brazilian authorities say they plan to hold a large-scale energy storage auction in 2025, potentially creating a market for large-scale storage facilities in the country. From pv magazine Brazil.

Which country has the largest solar PV market in South America?

Despite being the largest solar PV market in South America, with over 47GW of capacity installed – as of August 2024 – according to solar trade body Absolar, Brazil lags behind Chile when it comes to energy storage. Since Chile passed a major energy storage bill, gigawatts of energy storage co-located with solar PV are being built in the country.

Can Brazil be a big battery storage country?

With well-designed policies and regulations, Brazil has significant potential to follow in the footsteps of jurisdictions like California and Chile for large-scale battery storage, Germany for distributed and large-scale storage, and Australia for both pumped hydro and large-scale battery systems.
