

Latest wind power planning for Brussels solar container communication station

Overview

What is the EU wind power package?

To accelerate wind energy manufacturing across Europe, the Commission presented the EU Wind Power Package in October 2023. It consists of 2 initiatives - the European Wind Power Action Plan and a communication on achieving the EU's offshore wind ambitions.

How can the European Commission boost the wind power industry?

The European Commission has presented actions to boost the European wind power industry. To achieve the EU target that requires 42.5% of EU energy to be renewable by 2030, we will need a massive increase in wind installed capacity. This action plan will ensure that wind power continues to be a European success story.

What is the European wind power action plan?

ANNEX I - THE EUROPEAN WIND POWER ACTION PLAN IN A NUTSHELL 1. Commission and Member States to work together in order to accelerate permitting. 'Accele-RES' - frontloading transposition and implementation of the revised RED. Temporary emergency regime 2.

How will the European wind manufacturing sector contribute to the energy transition?

This action plan therefore aims to concrete results already in the coming months. Implementation of this action plan by the EU, Member States and industry will support the European wind manufacturing sector in overcoming the difficulties and improve its competitiveness to ensure that this sector fully contributes to the ongoing energy transition.
