

# Lifepo4 power station factory in Slovakia

## Overview

---

How much money does Slovakia invest in electromobility?

It is worth EUR 1.2 billion and it focuses on battery production. Slovakia secured another significant investment on electromobility. A joint undertaking of the Chinese Group Gotion and the Slovak Company InoBat plans to construct a battery production plant for electric vehicles in the Lower Nitra Region.

Where is the first battery cell production line in Slovakia?

The Slovak company InoBat has launched the first battery cell production line in Slovakia. It is situated right next to the research & development laboratories in Voderady. The maximum installed capacity of the line equals 50,000 battery cells produced annually.

When will the first Slovak battery production line start?

The first Slovak battery production line was put into operation in Voderady this week. The start of production is planned for the end of the Q1 of next year. In the first phase, the line will be operated by 41 InoBat operators, ensuring 24/7 operation of the battery formation and aging processes.

Where will a battery plant be built in the lower Nitra Region?

A joint undertaking of the Chinese Group Gotion and the Slovak Company InoBat plans to construct a battery production plant for electric vehicles in the Lower Nitra Region. The planned investment linked to the plant to be located in the town of Šurany amounts in total to an investment of EUR 1.2 billion.
