

London solar energy storage grid connection

Overview

Will a new grid connection queue boost the UK's solar PV sector?

The move is anticipated to be a major boon to the UK's solar PV sector. According to a spokesperson from the energy regulator, Ofgem expects a sizeable increase in Gate 2 offers, from 39GW to 65GW. Trade association Solar Energy UK also believes the reformation of the grid connection queue is likely to spearhead utility-scale solar PV developments.

Will 65 GW of solar projects secure a firm connection offer?

UK energy regulator Ofgem told pv magazine 65 GW of solar projects are expected to secure a firm connection offer under the reformed queue system. The connections queue for Great Britain's grid has grown tenfold over the past five years and stands as a significant barrier to solar, wind and energy storage deployment.

Will reformed grid connection queue unlock £40 billion in cleantech investment?

Great Britain's grid connection queue will be overhauled in a move the UK government claims could unlock GBP 40 billion in cleantech investment. UK energy regulator Ofgem told pv magazine 65 GW of solar projects are expected to secure a firm connection offer under the reformed queue system.

Will grid connection reform unlock battery energy storage capacity by 2030?

The grid connection reform could also unlock 7.6GW of battery energy storage system (BESS) capacity by 2030. Image: NextEnergy Capital.
