

# London ups energy storage solar container lithium battery

## Overview

---

What is a containerized battery energy storage system?

Let's dive in! What are containerized BESS?

Containerized Battery Energy Storage Systems (BESS) are essentially large batteries housed within storage containers. These systems are designed to store energy from renewable sources or the grid and release it when required. This setup offers a modular and scalable solution to energy storage.

What are containerised solutions for lithium-ion systems?

We specialise in containerised solutions for lithium-ion systems – supporting everything from EV (electrical vehicle) infrastructure to renewable energy and industrial power. Built for high-risk environments, our enclosures go beyond standard builds.

Why do you need a battery enclosure?

As demand for high-capacity energy storage grows, so does the need for safe, compliant, and intelligently designed battery enclosures. We specialise in containerised solutions for lithium-ion systems – supporting everything from EV (electrical vehicle) infrastructure to renewable energy and industrial power.

What is a Megatrons 1MW battery energy storage system?

MEGATRONS 1MW Battery Energy Storage System is the ideal fit for AC coupled grid and commercial applications. Utilizing Tier 1 280Ah LFP battery cells, each BESS is designed for a install friendly plug-and-play commissioning. Each system is constructed in a environmentally controlled container including fire suppression.
