

Luanda Solar Container 15MWh Purchase Contract

Overview

Will Quilemba solar provide electricity to Namibe & Hula?

The electricity generated by the solar park will primarily serve the provinces of Huíla and Namibe, where diesel remains a major source of power generation. In its first phase, the Quilemba Solar project is expected to provide electricity to 100,000 people, with an agreed energy cost of approximately six US cents per kilowatt-hour.

When will Quilemba solar project start?

The long-awaited Quilemba Solar project is poised to begin in 2025, following a recent agreement signed between Sonangol Gas & Energias Renováveis, TotalEnergies, and GreenTech.

Will a new energy project improve energy availability in the southern region?

João Baptista Borges, Minister of Energy and Water, emphasized that the project will significantly improve energy availability in the southern region, highlighting the area's great potential to meet both economic and social needs.
