

Luanda outdoor power field prospect

Overview

Angola's ANPG has identified five marginal fields for exploration in 2024, including the Kiame, 4_24, and Kiabo prospects in Block 4; the Malange, Lucapa, and Gabela prospects in Block 14; and the Xikomba, Mbulumbumba, Tchihumba, and Vicango prospects in Block 15. How many hydropower plants are there in Angola?

Angola has exceptional hydro resources, with 159 sites identified in previous studies as having potential for large hydropower plants, in addition to those already under construction or decided upon.

Why is Angola focusing on oil & gas investment?

These efforts are aligned with Angola's goal to maintain production above one million barrels per day beyond 2027, with a focus on diversifying its operator base and attracting fresh investments. Angola's commitment to industry reform, tax incentives, and flexible investment models will continue to attract a broader range of oil and gas players.

Which marginal fields will be explored in Angola in 2024?

Angola's ANPG has identified five marginal fields for exploration in 2024, including the Kiame, 4_24, and Kiabo prospects in Block 4; the Malange, Lucapa, and Gabela prospects in Block 14; and the Xikomba, Mbulumbumba, Tchihumba, and Vicango prospects in Block 15.

How many deepwater blocks will Angola offer in 2025?

The upcoming 2025 oil tender, the final phase of Angola's six-year licensing round, will offer nine deepwater blocks in the Kwanza and Benguela basins, expected to generate significant interest from both local and international companies.
