What is a MacBook power bank?

This mid-range laptop power bank is compact and lightweight with a handy retractable cable, and will get your MacBook back up to about three-quarters power on a single recharge. Great for: 14-inch MacBook Pro, 13-inch or 15-inch MacBook Air.

Which power bank is best for my MacBook Pro?

We have indicated which models of MacBook we think each power bank is best suited to, but that doesn't mean you can't pair any with different MacBooks. The 16-inch MacBook Pro can be fast-charged at 140W so owners of that model should look for a PD 3.1 power bank. But even a 13-inch MacBook Air will work well with the higher-capacity power banks.
