

# M4 inverter solar

## Overview

---

Which single phase solar inverter is UL certified?

Delta's new generation single phase solar inverter M Series with UL certification and HECO, CA Rule 21 compliance, are creative and innovative single phase inverters with an impressive MPPT operating range for the market.

How much power does a Delta M series inverter produce?

Maximum power production is derived from an extremely wide input range (50~550Vdc), low start-up voltage 30v, light weight 43 lbs (19.5kg) for 10kW and up to 98.0% peak efficiency. Thanks to 3 MPP trackers design, the Delta M Series inverter can generate more power from solar and is more flexible for various scales of PV systems and applications.

Why should you choose Delta M series inverter?

Thanks to 3 MPP trackers design, the Delta M Series inverter can generate more power from solar and is more flexible for various scales of PV systems and applications. NEMA 4X rating provides excellent protection.

Is Delta M series a good PV system?

NEMA 4X rating provides excellent protection. In addition, the M Series is also equipped with RGM (Revenue Grade Meter) with ANSI C12.20 (0.5% Accuracy) and BLE 4.0, with Zigbee/WiFi/Cellular communication. The Delta M Series has established an outstanding industry performance standard and leads the way in technology for residential PV systems.
