

Madrid Mobile Energy Storage Equipment Group

Overview

Will Madrid become a central base for energy storage systems?

“Our strategy is very clear: to turn Madrid into our central base for energy storage systems. From there, we’ll provide agile and specialized support to clients across Europe and Latin America,” Gattoni explained.

Why does Spain need more energy storage capacity?

Spain’s increasing need for energy storage capacity is driven by a growth of solar and wind generation and intensified by the limited interconnection between the Iberian peninsula and its European neighbours.

Why is solar energy based in Madrid?

By establishing its headquarters in Madrid, the company reinforces its position as a strategic partner for governments, companies, and consumers seeking sustainable and highly efficient solutions in the solar energy sector.

What is the largest CHP+PV+Bess project in Spain?

As part of this project, MARS is proud to contribute by providing Socrates BESS units, with a total capacity of 5.6MW/11,3MWh. Once completed, this will become the largest CHP+PV+BESS project in Spain, marking a significant milestone in the country’s energy landscape. This project has garnered support from the “PROGRAMA RENOCOGEN” initiative.
