

Magdan produces solar air conditioners

Overview

What is a solar hybrid air conditioner?

Our solar hybrid air conditioner units are similar to traditional solar air conditioners, easy and convenient to install, and compact in size. How do SolAir World solar air conditioners get shipped?

Our Solar air conditioners are typically shipped using standard shipping methods, similar to conventional air conditioning units.

How is a solar air conditioner shipped?

Packaging: The solar air conditioner unit is securely packaged to protect it from potential damage during transportation. The packaging typically includes foam padding, cardboard boxes, and other protective materials.

Transportation: The solar air conditioner is loaded onto a shipping vehicle for transportation.

How does a solar air conditioner work?

The next-generation solar air conditioners take the improvements made by inverter technology to the next level. By capturing thermal (ambient) energy, the amount of work the condenser does is reduced under full load and significantly extends the time the compressor is cycled off. Does the thermal panel have to be in direct sunlight?

.

Why should you choose solar air conditioners?

By improving the efficiency through our revolutionary fan design, thus increases the airflow and reducing noise. Our air conditioners produce clean, green cooling and heating. Solar Air Conditioners are manufactured to military standards and have an internationally recognised quality assurance system in place.
