

# Mali solar glass project construction

## Overview

---

When will Safo solar power plant be built in Mali?

Just a few days after launching construction work on the Sanankoroba solar power plant, Mali's transitional government laid the foundation stone for the 100 MWp Safo solar power plant on 28 May 2024.

What is Mali's new photovoltaic plant?

The plant, built in partnership with China, will cover 228 hectares and use monocrystalline silicon photovoltaic panels. At the groundbreaking ceremony, Bintou Camara, Mali's Minister of Energy and Water, stressed that "this project reflects President Goïta's vision for an energy system based on renewable energies".

When will a 100 MWp solar power plant be built in Mali?

On Tuesday 28 May 2024, Mali's President of the Transition, Assimi Goïta, launched the construction of a 100 MWp solar power plant in Safo, in the Koulikoro region. This initiative comes against a backdrop of persistent load shedding affecting households and businesses alike.

How big is Sanankoroba solar power plant?

This new project is being launched just a few days after the laying of the foundation stone for the Sanankoroba solar power plant. With an expected capacity of 200 MWp, it will be the largest solar power plant in sub-Saharan Africa, covering an area of 314 hectares.
