

Manila Smart Solar Power System

Overview

Does SM Mall of Asia have solar energy?

SM Mall of Asia (MOA) Square boasts a 2MWp solar energy system, reducing its environmental impact and contributing to a greener future. SM Prime's sustainability efforts extend beyond solar energy. The company also focuses on waste management, water conservation, and air quality initiatives, all designed to minimize environmental impact.

Where is SM Prime putting solar panels in the Philippines?

The largest installation is at SM City Santa Rosa. With a total of 96,000 solar panels across malls in Luzon and Visayas, SM Prime holds the Philippines' largest solar energy portfolio, covering around 33 hectares. These efforts are a vital part of the company's Net Zero by 2040 strategy, aimed at reducing its carbon footprint.

What is a smart PV system?

It provides smart PV solutions for residential, commercial, industrial, utility scale, energy storage systems, and microgrids. It builds a product ecosystem centered on solar inverters, charge controllers, and energy storage to promote sustainable and efficient utilization of solar energy.

Why is Huawei launching a smart home energy solution in the Philippines?

[Manila, Philippines, August 8, 2024] Huawei Philippines launched its groundbreaking Smart Home Energy solution, marking a significant milestone in the company's commitment to help the country achieve a sustainable and energy-efficient future.
