

# **Micronesia Independent Energy Storage Project**

## Overview

---

Nestled in the Federated States of Micronesia, this \$220 million initiative isn't just about storing electrons—it's about rewriting the rules of energy independence for tropical communities. What projects are being invested in YSPSC & Kosrae?

Project investments will include solar photovoltaic (PV) and mini-grid investments for Kosrae Utilities Authority (KUA) in Kosrae, and (ii) PV and a battery energy storage system (BESS) for Yap State Public Services Corporation (YSPSC) in Yap. The scope of investments and estimated associated costs for each State are presented in Table 1.

What is the Federated States of Micronesia (FSM)?

The Federated States of Micronesia (FSM) consists of the Government of FSM (GoFSM) and the four states of Chuuk, Kosrae, Pohnpei, and Yap.

What is a solar project in Kosrae?

The project will also include a hybrid PV-diesel mini-grid and solar-home-systems in Walung village, a remote part of Kosrae island. Investments in Walung will include 60 kW of PV, a 30 kW diesel generator, a 30kW/160kWh BESS, and multiple 2.5 kW/4kWh solar home systems.

## Micronesia Independent Energy Storage Project

---

### micronesia Archives

The small island nation of Palau in the western Pacific Ocean has moved a step closer to having what is said to be the largest ever microgrid spanning diesel, solar and battery energy storage.

---

### Home power storage Micronesia

The Federated States of Micronesia are investing in solar micro-grids and battery energy storage systems as well as capacity building to increase self-sufficiency and reduce emissions.

---

### Mass energy storage systems Micronesia

The mammoth 8 GW installation will be accompanied by 4 GW of wind and 5 GWh of energy storage capacity. The country is also developing the world's biggest wind farm, with a 43.3 ...
