

Middle East Flow Battery Supply Chain

Overview

Does China have an oversupply of l(m)fp batteries?

China, which began to favor L (M)FP chemistries before other regions did, now has a significant oversupply, while other regions have a large undersupply and require L (M)FP battery imports. These trends are expected to continue through 2030 (Exhibit 5). For NMC and NCA batteries, all regions are expected to have an oversupply in 2030.

Does battery supply exceed global demand?

Although battery supply may exceed demand at the global level, the picture is more nuanced and varied by region. Some countries have excess capacity—meaning more than enough to satisfy local demand—while others rely on imports to alleviate local shortages. This regional view could become critical if more countries try to localize production.

What are the three global demand scenarios for batteries?

We created three global demand scenarios for batteries: fading momentum, continuation of the current trajectory (base case), and further acceleration. The main demand differentiators included variations in EV production volume and uptake of energy storage systems.

Where are batteries made in the world?

Globally, the top two battery suppliers are Chinese. They conduct almost all production within China, but many of their customers, including major OEMs, are headquartered elsewhere. About 64 percent of Chinese battery capacity in 2030 will involve L (M)FP-type chemistries.

Middle East Flow Battery Supply Chain

The Rise of MENA: Saudi Arabia & Morocco's ...

3 days ago · Saudi Arabia and Morocco are making head way in the race to secure a foothold in the global lithium-ion battery supply chain. By ...

Global battery supply chain: Hidden regional ...

Aug 26, 2025 · Explore hidden regional trends and supply-demand imbalances in the global battery supply chain, with strategies to drive ...

Middle East and Africa Battery Energy Storage System ...

The supply chain analysis section includes detailed insights such as Middle East And Africa Battery Energy Storage System consumption and production by country, price trend analysis, ...

How Saudi Arabia and Morocco are shaping the EV battery supply chain

As the global race to secure critical minerals heats up, actors in the Middle East and North Africa (MENA) region, especially Saudi Arabia and Morocco, are gaining a strategic foothold in the ...

Middle East Battery Energy Storage Systems Market Report, ...

The UAE battery energy storage systems (BESS) market held the largest share of 34.85 % of the Middle East market in 2024. The battery energy storage systems (BESS) market in the Middle ...

The Rise of MENA: Saudi Arabia & Morocco's Ambitions in the EV Battery

3 days ago · Saudi Arabia and Morocco are making head way in the race to secure a foothold in the global lithium-ion battery supply chain. By leveraging state support, different policy ...

Global battery supply chain: Hidden regional trends , McKinsey

Aug 26, 2025 · Explore hidden regional trends and supply-demand imbalances in the global battery supply chain, with strategies to drive market growth.

Saudi Aramco Energy Storage and Battery Initiatives for ...

1 day ago · Aramco's move to sustainable energy: Pioneering energy storage, flow battery tech & lithium production through key partnerships. Net-zero target by 2050.

The Future of Battery Market in the Middle East & Africa

Jun 24, 2025 · Battery Market Landscape The Middle East and Africa battery market is experiencing transformative growth amid rapid industrialization and economic diversification ...

The lithium rush: How the UAE and Saudi ...

Sep 16, 2024 · "Saudi Arabia and the UAE are investing in lithium processing facilities and forming strategic partnerships to secure a stable lithium ...

Statevolt's push for a sustainable battery supply chain

Sep 3, 2024 · Lars Carlstrom shares insights on Statevolt Emirates' mission to localise and innovate battery production in the Middle East. Inside Statevolt's push for a sustainable battery ...

Statevolt's push for a sustainable battery ...

Sep 3, 2024 · Lars Carlstrom shares insights on Statevolt Emirates' mission to localise and innovate battery production in the Middle East. Inside ...

The lithium rush: How the UAE and Saudi Arabia are racing ...

Sep 16, 2024 · "Saudi Arabia and the UAE are investing in lithium processing facilities and forming strategic partnerships to secure a stable lithium supply for local battery production. In ...

Middle East Battery Market to Hit \$26.47 Bn by 2030

Nov 4, 2025 · Anticipate an impressive CAGR of 16.09%, driving the Middle East Battery Market to soaring heights, positioned for substantial expansion by 2030.
