

Mobile Energy Storage Container Procurement Contract for Schools

Overview

Why do companies bid for energy storage tenders?

Bidding for energy storage tenders is extremely lucrative for companies of all sizes. Tendering authorities and private companies release thousands of contracts worth millions for procurement of energy storage. Global Tenders stands out as the largest platform dedicated to tenders and government contracts.

How do energy storage contracts work?

For standalone energy storage contracts, these are typically structured with a fixed monthly capacity payment plus some variable cost per megawatt hour (MWh) of throughput. For a combined renewables-plus-storage project, it may be structured with an energy-only price in lieu of a fixed monthly capacity payment.

Can a multi-academy trust join the energy for schools online service?

The service also: The Energy for Schools online service is currently only available for individual state-funded schools, like local authority-maintained schools and single academy trusts. Multi-academy trusts can join the contract by filling in the Register your interest form and completing the process offline.

Can schools save money on energy bills?

Schools could save on average 36% on their energy bills, based on DfE's estimates. The service also: The Energy for Schools online service is currently only available for individual state-funded schools, like local authority-maintained schools and single academy trusts.
