.

What is a portable power station?

A solar generator is a portable power station that supports solar panel input. They are often used interchangeably, but not all power stations come with solar panels. How long does a portable power station last during an outage?

Run time depends on capacity and load.

What is the difference between a generator and a portable power station?

A portable power station is essentially a big rechargeable battery that you carry around. Deplete it, and it's useless until you can recharge. A generator, by definition, is a device that actually converts some type of energy to usable electricity in whatever circuitry you have it connected to.
