

Mobile power box large capacity fast charging

Overview

What is a portable charger power bank?

The Portable Charger Power Bank 40,800mAh stands as the ultimate charging solution for power users who demand maximum capacity without compromising on convenience. You'll get 6-8 full smartphone charges from its massive 40,800mAh capacity. The unit delivers 25W PD fast charging that'll boost your phone from 20% to 70% in just 30 minutes.

How many phones can a power bank charge?

You can easily charge two or three phones, or a plethora of devices, altogether with the right power bank. Since they come with multiple ports and fast charging speeds, they're better at topping up your gear than regular 5,000mAh or 10,000mAh power banks. If you're on the hunt for something in the range of 20,000mAh or more, bulk is to be expected.

What is a portable charger & how does it work?

These portable chargers have a large battery capacity that can provide multiple charges to your devices, such as smartphones, tablets, or laptops. With their fast charging technology, you can quickly power up your devices without having to wait for hours.

How fast does a power bank charge a phone?

As a wall charger, it offers a powerful 65 watts of output for super-fast charging—faster than most of the competition. As a power bank, it still offers quite a lot of speed at 30 watts. On its own, the power bank can recharge most smartphones around two times before it needs to be plugged in again.
