

Motor circuit breaker factory in Estonia

Overview

Who makes electric motors in Estonia?

Today, Konesko is the largest manufacturer of electric motors in Estonia. In addition to motors, the main areas of activity are the manufacture of electrical and crane components (all production 100% export).

What happened to konesko electric motors?

In the summer of 2015, it was decided to acquire the former production buildings in Türi-Alliku, where the production of electrical components (3000 m²) was expanded (control panels for container cranes) and a new modern electric motor factory (4400 m²) was built. Today, Konesko is the largest manufacturer of electric motors in Estonia.

Where are konesko products made?

Almost all products manufactured by Konesko are designed in Hyvinkää Konecranes OY. Together with the growth of production, the expansion of the nomenclature of products, and to alleviate the labor shortage, AS Konesko acquired production halls in Põltsamaa at the end of 2003, where Konesko's metal factory has been located since the summer of 2004.

How many employees does Konecranes Oy have?

The number of employees grew from 134 to 340 in just two years. At the end of 2003, Konecranes OY was also included in Konesko's list of shareholders with a 19% stake, and from the end of 2013, Konecranes OY owns 49% of Konesko's shares (51% is still Estonian private capital).

Motor circuit breaker factory in Estonia

OEZ:39269 OEZ Wholesaler

Dec 3, 2025 · OEZ OEZ:39269 is a professional Motor Circuit Breakers solution designed for companies. BaltElec specializes in wholesale and product distribution in Estonia, Latvia, ...
