

Namibia Titanium Energy Storage Project

Overview

Why is a battery storage facility important in Namibia?

The battery storage facility is expected to be crucial in improving system stability, lowering dependency on energy imports, easing the smooth integration of large-scale renewable energy sources into Namibia's power grid, and more effectively controlling demand peaks.

How can Namibia improve its electrical infrastructure?

A significant \$138.5 million investment package to improve Namibia's electrical infrastructure has been certified by the World Bank. The package places special emphasis on the integration of renewable energy through reinforced transmission lines and the installation of a second utility-scale battery storage facility.

What is Namibia's first energy project funded by the World Bank?

The package places special emphasis on the integration of renewable energy through reinforced transmission lines and the installation of a second utility-scale battery storage facility. Under the leadership of NamPower, the national power provider, this historic endeavor represents the first energy project in Namibia to be funded by the World Bank.

How will NamPower change Namibia's energy environment?

With financing from the World Bank, NamPower's ambitious project is expected to drastically change Namibia's energy environment by lowering outages, promoting load growth, and creating new avenues for power trading within the Southern African Power Pool.

Namibia Titanium Energy Storage Project

World Bank Funds \$138.5M for Namibia ...

World Bank approves \$138.5 million for Namibia's energy enhancements, focusing on renewable integration and advanced battery storage capabilities.

The equipment for Namibia's first grid side energy storage project

Oct 15, 2025 · The Ombru Energy Storage Project is located in central northern Namibia, with a designed storage capacity of 51 megawatt hours. It can release electricity to the grid during ...

World Bank Funds \$138.5M for Namibia Energy Project

World Bank approves \$138.5 million for Namibia's energy enhancements, focusing on renewable integration and advanced battery storage capabilities.

Project Information Document (PID)

Feb 13, 2023 · The grant funding from the IBRD Fund for Innovative Global Public Goods (GPG) Solutions and the Green Climate Fund (GCF) will be used for developing the second utility ...

Mw storage Namibia

A joint venture (JV) between the two Chinese companies will deliver the 54MW/54MWh Ombuu battery energy storage system (BESS) project in Namibia's Erongo Region, at the existing ...

Namibia: EPC contract signed for first-ever ...

Dec 13, 2023 · The first-ever grid-scale battery storage project in Namibia 'signifies country's dedication to modernising energy infrastructure'.

Namibia's Battery Storage Projects: Progress Since the

Sep 3, 2025 · In May 2024 the World Bank approved a US\$138.5 million loan for Namibia's Transmission Expansion and Energy Storage (TEES) project.

Namibia: EPC contract signed for first-ever grid-scale BESS

Dec 13, 2023 · The first-ever grid-scale battery storage project in Namibia 'signifies country's dedication to modernising energy infrastructure'.

Namibia's Energy Storage Breakthrough: The 54MW BESS Project ...

Namibia's just made a game-changing move. In December 2023, the country signed contracts for its first utility-scale battery energy storage system (BESS) - a 54MW/54MWh project at ...

Namibia Titanium Energy Storage Project

Namibia Gets US\$139 Million For Grid Project The Namibian government has secured World Bank funding of Namibian dollar 2.6 billion (US\$138.5 million) to support the strengthening and ...

NamPower awaits proposals in tenders for new solar, storage

5 days ago · The Namibia Power Corporation (NamPower) is seeking contractors willing to install 120 MW of solar and 45 MW of battery storage capacity at two locations in its home country.

Namibia energy storage project bidding

Namibia Mining and Energy, is a weekly publication that focuses on Namibia's mining and energy sectors. For more information contact: +264 81 4343 154 or [Search all the battery energy ...](#)
