

Nepal charging station energy storage project bidding

Overview

The Nepal Electricity Authority (“the Employer”) invites sealed bids from eligible Bidders for the Design, Engineering, Supply, Construction, Installation, Testing, Commissioning and Operation & Maintenance support of (AC) Solar PV Power Plants with Battery Energy Storage System at Mugu, Dolpa, Jumla and Humla districts of Nepal (“the Facilities”). Why is EV charging important in Nepal?

Nepal is rapidly transitioning toward sustainable transportation, with electric vehicles (EVs) playing a pivotal role in reducing greenhouse gas emissions and urban air pollution. A robust EV charging infrastructure is critical to supporting this transition, enabling convenient, reliable access to power for EV users across the country.

How many charging stations are there in Nepal?

In 2023, the NEA inaugurated 51 new charging stations across Nepal’s seven provinces, including 26 stations capable of charging buses, trucks, and cars simultaneously (Farsight Nepal, 2023). These stations are equipped to charge up to three vehicles at once and are strategically placed on highways, bus parks, and urban centers.

What is the invitation for bids no for Nepal Electricity Authority?

Invitation for Bids No.: PMD/PTDSSP/EVCS/2076/77-01 OCB No.: PMD/PTDSSP/EVCS /2076/77-01 Employer: Nepal Electricity Authority Country: Nepal VOLUME -II OF III January 2020.

How many EV chargers are there in Nepal?

Nepal currently has around 60 fast chargers, with plans to increase this number significantly (Yadea Nepal, 2023). Private and Dealership Chargers: Some EV manufacturers like MG Motor and Hyundai have installed charging points at dealerships in Kathmandu and other cities, though these are often restricted to customers.
