

New generator for solar power station

Overview

Which solar generator is right for You?

Whether you want something compact for camping or a larger unit for emergency home backup, these solar generators deliver the goods. The Jackery Solar Generator 2000 Plus is a fast-charging portable power station that can be bundled with SolarSaga 200W panels for recharging off-grid.

Can a solar power station be used as a generator?

However, using one effectively is a little more complicated than many people realize. Technically, these units are electric power stations—giant battery packs, with the ports you need to plug in solar panels for charging. They can't actually harness solar power—and thus, act as a generator—unless you have both.

How do I choose the best solar generators?

To pick the best solar generators, we tested some of these power stations for charging capacity, ease of use, weight, and different use cases. Some picks were reviewed by Popular Mechanics test editor Brad Ford, who provided input for the larger-capacity units.

What are the best solar generators?

Top-rated models include the EF ECOFLOW Solar Generator DELTA 2 Max for all-around performance, the BLUETTI Portable Power Station AC180 and Anker SOLIX C1000 for compact portability, the Jackery Explorer 1000 v2 for lightweight travel power, and the EF ECOFLOW Portable Power Station DELTA 2 for strong value and balanced capacity.
