

New solar panel manufacturer in Sao Paulo Brazil

Overview

Where are solar panels made in Brazil?

Pirapora Solar Complex, one of the largest in Brazil and Latin America, with a capacity of 321 MW. In 2016, a factory capable of producing 400 MW of solar panels a year opened in Sorocaba in São Paulo, owned by Canadian Solar. A plan to build a solar panel factory in Rio Grande do Norte was announced by the Chinese manufacturer Chint in 2017.

Where are solar panels produced in South America?

Brazil, with its abundant sunshine and favorable government policies, is at the forefront of solar energy production in South America. In this article, we will explore the top seven solar manufacturing companies in Brazil, and delve into the certifications necessary for solar panels in the Brazilian market.

Where are solar panels made?

With its operations established in 2001, the Brazilian branch is located in Sao Paulo. This solar manufacturing company in Brazil has a strong commitment to sustainability and innovation and offers an extensive product range, including PV modules, solar inverters, and battery storage systems.

Should you buy solar panels in Brazil?

If you opt for the most efficient solar panel brands, you'll end up paying more upfront than if you opted for the most affordable panels. On the other hand, more efficient panels could save you more in the long run on your power bills. Additionally, add-on products, such as solar batteries, can bring your total well above the Brazil average.
