

Next generation solar inverter

Overview

What's new with a new solar inverter?

The new residential offering will integrate a scalable battery and a new solar inverter up to 11.5kW to provide highly flexible whole home backup to fit various types of home across the US. This press release features multimedia.

What is SolarEdge DC optimized inverter?

SolarEdge developed an intelligent inverter solution that changed the way power is harvested and managed in photovoltaic (PV) systems. The SolarEdge DC optimized inverter seeks to maximize power generation while lowering the cost of energy produced by the PV system.

What is senergy's new residential off-grid inverter?

At this year's exhibition, Senergy unveiled its latest residential off-grid inverter, the SE 6KFG-S1/LV, delivering a forward-looking smart energy solution through groundbreaking design. Supporting 200% PV oversizing and 150% usable PV power with a high input current of 36A, the inverter is compatible with high-power solar modules.

What is SolarEdge's next generation integrated solar & storage solution?

Ronen Faier, Interim Chief Executive Officer of SolarEdge: "Our next generation integrated solar and storage solution is based on our vast experience with millions of homes across the U.S. Addressing the need for home battery storage, it also provides the flexibility for customers to adapt their home solar to dynamic energy markets."
